TABLE 19.—POPULATION BY SEX, GENERAL NATIVITY, AND COLOR, OF PLACES HAVING 2,500 INHABITANTS OR MORE: 1890.

[This table gives the population of all places, incorporated and unincorporated, in the United States having 2,500 inhabitants or more, so far as they have been returned by the census enumerators separate from the population of the township, precinct, district, etc., of which they form a part. In the New England states the population of towns having 2,500 inhabitants or more has been used, except in Connecticut, where, in the case of cities or boroughs having 8,000 inhabitants or more which have been separately returned, the population of the city or borough and not that of the town is given.]
