Boundaries of statistical areas.—The city of Cleveland has been divided into 201 permanent units called tracts, and these tracts have been combined into 40 groups, termed statistical areas. It is believed that the census data for these areas will be more significant than would be the data for wards, which are subject to rather frequent change. The boundaries of the statistical areas are indicated below, beginning in each case at the northwest corner of the area, and giving first the northern boundary, then the eastern, then the southern and finally the western.
