<sup>1</sup> According to the new urban definition, the urban population comprises persons residing in urban territory but not necessarily in an urban place, which is defined as an incorporated place of 2,500 or more, or an unincorporated place of 2,500 or more located outside an urbanized area. Under the old definition, incorporated places of 2,500 or more and places of 2,500 or more under special rule are classified as urban places. In Nevada there were no places urban under special rule in 1940.  
<sup>2</sup> Population of area taken to form Nevada Territory in 1861.

["Uninc." designates an unincorporated place. Counties showing totals but no minor civil division figures for 1930 were redistricted between 1930 and 1940. Minor civil division figures for other counties in 1930 do not necessarily add to county total because of reorganization of minor civil divisions. Figures for 1940 and 1930 not available for unincorporated places and places incorporated subsequent to April 1, 1940. Boundary changes between 1940 and 1950 given in footnotes; for changes between 1930 and 1940, see reports of 16th Census (1940), Population, Vol. I, p. 655]

[“Uninc.” designates an unincorporated place. Figures for 1930 and 1940 not available for unincorporated places. A blank for any other area indicates that no population was reported in given year. Minor civil divisions for which no population has been reported at each of the last 3 censuses are not shown. For boundary changes between 1930 and 1940, see reports of the 16th Census (1940), *Population*, Vol. 1, p. 662. <sup>1</sup> According to the new urban definition, the urban population comprises persons residing in urban territory but not necessarily in an urban place, which is defined as an incorporated place of 2,500 or more, or an unincorporated place of 2,500 or more located outside an urbanized area. Under the old definition, incorporated places of 2,500 or more and places urban under special rule are classified as urban places. There were no places urban under special rule in New Mexico.

<sup>2</sup> Total for 1860 is exclusive of population of area taken to form part of Colorado Territory in 1861, but it includes population of area organized as part of the Territory of Arizona in 1863. No estimate of population in 1850 is available for territory acquired from Mexico through the Gadsden Purchase (1853), annexed to New Mexico in 1854.

Table 6.—POPULATION OF COUNTIES BY MINOR CIVIL DIVISIONS: 1930 TO 1950

'Uninc.' designates an unincorporated place. "Precincts" shown here are election precincts. Figures for 1940 and 1930 are not available for unincorporated places or places incorporated since April 1, 1940. Minor civil division figures for 1940 and 1930 do not necessarily add to county totals. Boundary changes between 1940 and 1950 given in footnotes; for changes between 1930 and 1940, see reports of 16th Census (1940), *Population*, Vol. I, pp. 697-701. Total population of a place located within 2 or more minor civil divisions appears in table 7.

## URBANIZED AREA MAPS

The eight urbanized areas entirely within New York and the New York part of the New York-Northeastern New Jersey Urbanized Area, for which statistics are shown in table 9, are depicted in the following maps. The shaded areas, in combination, comprise the urbanized areas. To assist in locating the exact external

boundaries of the areas, each boundary feature (street segment, political boundary, or other) has been assigned a number. The boundary segments thus numbered are shown on the map, and the features to which they apply are presented in the following key.

<sup>2</sup> Includes 31,135 persons in urban territory outside of urban places.
