## Population Counts for States

*(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)*

As of April 1, 1970, the population of the State was 2,522,881, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 140,287, or 5.9 percent, from the 2,382,594 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

## Population Counts for States

*(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)*

As of April 1, 1970, the population of the State was 3,838,777, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 271,688, or 7.6 percent, from the 3,567,089 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

PRELIMINARY  
REPORTS

## Population Counts for States

*(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)*

As of April 1, 1970, the population of the State was 10,989,123, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 1,409,446, or 14.7 percent, from the 9,579,677 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

PRELIMINARY  
REPORTS

## Population Counts for States

*(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)*

As of April 1, 1970, the population of the State was 1,060,631, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 170,004, or 19.1 percent, from the 890,627 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

July 1970

PRELIMINARY  
REPORTS

## Population Counts for States

*(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)*

As of April 1, 1970, the population of the State was 4,543,249, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 576,300, or 14.5 percent, from the 3,966,949 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

# 1970 CENSUS OF POPULATION

July 1970

U.S. DEPARTMENT OF COMMERCE / Bureau of the Census

PC(P1)-49

**WASHINGTON**

**PRELIMINARY  
REPORTS**

## Population Counts for States

*(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)*

As of April 1, 1970, the population of the State was 3,352,892, according to a preliminary count of the returns of the 1970 census. This figure represents an increase of 499,678, or 17.5 percent, from the 2,853,214 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

## Population Counts for States

*(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)*

As of April 1, 1970, the population of the State was 1,701,913, according to a preliminary count of the returns of the 1970 census. This figure represents a decrease of 158,508, or 8.5 percent, from the 1,860,421 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.

## Population Counts for States

*(This report is based on preliminary counts of the population as compiled in the 1970 census field offices. The series consists of 57 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 57 for Puerto Rico, Guam, Virgin Islands, American Samoa, and Canal Zone, respectively.)*

As of April 1, 1970, the population of the State was 328,591, according to a preliminary count of the returns of the 1970 census. This figure represents a decrease of 1,475, or 0.5 percent, from the 330,066 inhabitants enumerated in the 1960 census.

This report presents preliminary 1970 counts for the State, each county, and each incorporated place of 1,000 inhabitants or more. These preliminary figures will be superseded by the final counts to be shown in Advance Report Series PC(V1), which will be issued later this year. The final figures may differ from the preliminary counts for a number of reasons.

An outline of the 1970 census publication program can be obtained free of charge from the Bureau of the Census, Washington, D.C. 20233, or any U.S. Department of Commerce Field Office.
