

## Griggs County Boy German Prisoner.

Sentinel Courier: A card was received this week by John Johnson in Romness from his son, Robert, who was long since reported missing in action. He was engaged in one of the heavy battles on the western front and after bringing a wounded comrade back to the first aid station made his return to the battle. From that time he was completely lost sight of. His brother, who was in the same fighting unit, appraised his parents of the fact several weeks ago. The parents, who had been anxiously awaiting word either from the government or others who could solve the mystery of his disappearance were very much gratified to hear that he had been released from a German prison camp
