

evening, by train.

The Times is in receipt of a letter this week, from our former townsman, O. G. Arneson, now located at Spokane, Wash. He encloses an ad, and says "it doesn't look right not to see my ad in the Binford Times, the best little paper in North Dakota." The ad appears elsewhere in this issue. The Arnesons are enjoying good health and, so far, have escaped the flu germs. Mr. Arneson is a great booster for the western country. He states: "This is a great climate, nothing like it," and referring to the land deal he made with Wm. Lucht, he adds that "Bill is very well pleased with the land I sold him; says it is worth \$100. per acre now and he only paid \$77.50 for it. That's the way to make money."
