

# FARMERS FIX WAGE SCALE

## UNIFORM SCALE ADOPTED TO PAY HARVEST AND THRESH- ING HELP

A number of farmers, representing the townships adjoining the village of Binford, held a meeting in the First State bank, Saturday evening, to discuss the wage problem for the harvest and threshing season.

A scale of \$4.00 per day for shocking and \$5.00 per day for threshing was agreed upon, ten hours to constitute a days work. Extra time will be paid at the same rates.

Advices from the Federal Employment agencies at Minneapolis and Fargo state that sufficient men will be available to handle the crop in North Dakota this year. Harvesting in Kansas, says this advice, is practically over, and the men are moving northward.
