

## **Thompson Yards Expand.**

The Thompson Yards, Incorporated, have expanded to a considerable extent recently, having purchased a line of sixty-three yards in South Dakota and northwestern Iowa, besides completing the purchase of several yards in the twin cities.

This hustling lumber company is making a splendid record for service and sales, and their new acquisition will mean that sixty-three more towns will be given the fine attention to their wants in the lumber line which has become the watchword of the Thompson Yards.
