

# LIVE CLUB IS ORGANIZED

## Enthusiastic Meeting Results In Organization—Members are Signing Up.

It's going over big.

We refer to the Binford Community club.

Given impetus by the visit here of Dr. F. W. Weber, of the Federated Community association, the movement has been launched and a temporary organization selected to proceed with the preliminary plans, looking forward to a 100 per cent membership when the club is permanently perfected the latter part of the month—March 24 and '25 to be exact.

At the Saturday afternoon session of the Community programs, the sentiment of those present was expressed favorable to such an organization and at the evening meeting when a larger audience attended, temporary officers were elected as follows:

President—F. G. Lewis.

Vice President—A. H. Overby.

Secretary—C. E. Peterson.

These officers together with a com-

mittee consisting of Herman Osen, M. D. Leininger, Matt Rorvig, A. H. Overby, and T. H. Dahl, will conduct an energetic drive for memberships. It is their intention that every family within this community is approached and given an opportunity to enroll and become booster for their club. You're wanted—and it isn't necessary to wait until a member of the committee calls on you to sign up. Already the club has a membership of about 75, with practically no effort.

The object of the organization is best set forth in the following words: "The purpose of this club is to organize Community friendship with a view to the creation of good will among all classes of citizens. To create intelligent public opinion on Community problems. To stimulate Community thought to conscious and efficient direction of its own affairs."

When the organization work is completed the various branches of work to be taken up will be looked after by Committees that will be appointed or elected.

Come in and inspect our "Cummer Automatic" Smut Machine, which treats grains of all kinds, and grass and garden seeds.—Hammer-Thingelstad Co.
