

COMMUNITY PROGRAMMES

FIRST PROGRAMS TO BE GIVEN
IN BINFORD, DECEMBER
10th and 11th.

The time of the year has again arrived when we are going to hold those splendid Community Programs. The first number that will be given in Binford promises to be an extra good one. Dr. F. W. Weber will be the lecturer. Mr. Weber is well known in Binford and many will be glad of the opportunity to hear the message of cooperation that he will bring to us this year. The musical attraction will be given by the Adam Trio. The Times is unable at this time to give any information regarding them but will endeavor to do so in a later issue. December 10 and 11 are the dates they are to appear here. On account of the 11th falling on Saturday, the program for that day may be changed to Sunday, the 12th.

It is not the intention of the committee of the Federated Community Clubs to make this a money making scheme. The motive behind these community gatherings and entertainments is to get to know your neighbor better.

During these times when we have just emerged from a political struggle, where neighbors and old-time friends have become cold and indifferent, it is well that we try to establish a better feeling. The only way that this is possible, is to get the people to mingling more. It makes no difference what any man's political or religious beliefs may be; we all have a right to our opinions and it must be understood that these beliefs will be respected.

The only difference between the man or woman who lives in Binford and the man or woman who lives in the country, is one lives in town while the other lives on the farm.

The social position of each is the same and it is the intention of the Federated Community Club to draw them together so they will realize this more and both will enjoy a feeling of good fellowship.

The boy and the girl on the farm must have some place to go for entertainment; so must the boy and girl in the town, therefore it has been the aim and object to furnish entertainment of the highest order so all men can enjoy it.

These entertainments are given in towns because there is no place big enough in the country, but while the roads are good it will be a pleasure trip.

The afternoon entertainments will give the older people who live in the country a chance to attend and get home before nightfall.

Not only do we look forward to the splendid programs that we will enjoy this fall and winter, but then it will give the town and country people a chance to get re-acquainted and to mingle socially.

The real community spirit has touched Binford and vicinity. We are going to see more people coming here than ever before, because of the good clean entertainments that are being given at a price so low, even in normal times.

The farmers will find much food for thought in the lectures that will be given; questions concerning home life on the farm will be discussed as well as other matters of importance.

Let no one who is interested in a better and more neighborly community miss this opportunity to enroll as a member of the Community club. All good things are worth doing well so let us all get behind this move and give it a bigger boost than ever before.

We print calling cards, stationery, correspondance cards, etc. Give us an order now for your work in that line. Now is the time to order those Christmas cards. See the samples at The Times office.
