

Community Club Will Be Permanently Organized---Join and Become a Booster.

The next number of the Federated Community Lecture course, will be given in Binford on Wednesday and Thursday, March 24 and 25, and three programs will be given, the first on Wednesday evening at 8:30, the second Thursday afternoon, at 2:30, and the last Thursday evening at 8:30. Both musical numbers and lectures will be given at each program by the Scotts and Dr. Nation.

The Scotts are a company of guaranteed attractions. Twelve different Bureaus attesting to the pleasing quality of their entertainments. Ten years of successful entertainment through the United States, Canada and Mexico, they strike 100 per cent with their audiences. They come to North Dakota at their very best.

Mr. Scott is a thorough Scotchman and Marion Gallagher Scott, is sure a daughter of the Killarney Isle.

You will want to see them in the sketch "The Lunatics", the first evening of the series. You will enjoy to the fullest extent, Mr. Scott

this, years of study of communities and conferences with their people in the towns where he has lectured throughout the United States, and you have the man who is to be with us in our programs. He knows the community, and whether sitting in council with your community club, surrounded by school teachers, with your boys and girls, teaching them first aid to the injured, or the care of the sick, or standing on the platform and telling you about your community, you will say, "It was good for us to have Dr. Nation with us." He knows his audiences, their community problems, and without sparing them, drives home shafts that hurt but produce results. He is generous, just, sincere. He believes in the people and the community, and has enough humor to make it possible to tell people hard things and make them like it while doing it.

Always a friend of the boys and girls, thoroughly in love with his work, 100 per cent American, believing that loyalty to community

Dr. W. H. Nation, Community Lecturer

in his Old Man characters, in wig and make-up. Then the second program with its Irish songs and costumes, and last and best of all, the great program! You will see your old familiar friend The Medicine Street Fakir, who sold you a few more bottles of "Cure-All" than you needed. Along with this comes the Italian lad and finally Mr. Earl Scott will appear in his portrayal of the famous Harry Lauder songs and Kilties.

Do not fail to see the Scotts in the next Community Programs. They are a most wonderful duo. Something new and entirely different than any of the previous community programs.

Dr. Nation accompanies this splendid Duo and altogether they form a most excellent combination.

Dr. W. H. Nation, brought up on a farm, teaching in the rural and small town communities, handling the community problems for a city, always a student and a lover of the people in general, he came to the Chautauque platform, bringing with him not a theory of accomplishment upon which a community might be built but the hard earned experience in putting over the problems that are your problems in communities that are just like yours. Add to

breeds in boys and girls a real loyalty to country, he comes to us to help us to do the things we have been wanting to do in building of our community a better place in which to live.

Dr. Nation is more than a community lecturer, he is a community builder. Having lectured thruout the entire United States he might point to one town where incorporation was the result of his visit, another where the water and sewer systems grew out of his visit. Another where consolidation of district school and a new school house was the result. And so we might go on, Welfare Associations, Businessmen's Associations, Farmers Clubs, all have profited by his visit. And the Boys and girls—he has been styled—"The Young Peoples Defender." He believes in them and it is not an unusual thing to see him after his lecture surrounded by a group of boys and girls in their teens.

He is forceful, just, but fearless in his dealings with community problems. Everybody gives him attention from the little child to the old folks. They may shake their heads but knows what he says is true. He defends the home with the common-sense round about it. Having lived and worked in community lines in com-

munities just like yours, he will be able to reach your own problems and you will find that when he is gone it will as is written him so often. "We are better able to put over the thing we want to do." Here is a lecturer that helps you in your own home community.

Be sure to see all three programs. All different and equally as good.

Jessie Play in Binford Friday.

WI The Tele

If the Telephone Company more money to carry on its business, gone up 50 to 100 per cent in prices, make any statements necessary you will take out your phones, eager, for they have lost between 50 and 75 per cent of their value. If it was necessary, and by having more expense would be about the same.

Now Friends: How far is it? Ever its name is mentioned or asked? Will this condition help make or induce more people to have pay try asking your neighbor to have fits can be had by having a phone call in the Telephone man and to be human.

The Telephone Company shall charge. They may ask for saying that they are going to go is established by the Commission, all whether it be phone rental, moving of phones, or anything else.

How often we hear this in the first place." No telephone extend its present service without the person who is going to be built that time on the rebuilding million expense account.

Who wants to see the E than the Telephone company? we get this by knocking or bo for an answer. But this cannot think anyone expects it.

It might be of interest to of the Binford Exchange since City Phones Number
