

The first programs of the Community series were given in Binford last week, Wednesday and Thursday, and the attendance at each meeting was very encouraging to the guarantors, who are responsible for securing these entertainments for Binford. The DiGeorgia quartette was, in our opinion, far superior to any musical organization ever appearing on the Binford stage. Every member is a finished musician and their repertoire consisted of a variety of musical numbers which can be appreciated by everyone. Mr. Moss, the lecturer, delivered a good address on "The Struggle for Existence." Talks of this nature will do much to build up a spirit of community co-operation.
