

AN EXCELLENT ENTERTAINMENT

The Merrie Maids and Dr. Webber
Furnish Splendid Community
Program.

The second appearance in Binford of representatives of the Federated Community Association of North Dakota scored a great success in every way last Thursday afternoon and evening. The "Merrie Maids", a quartette, and Dr. Weber, a lecturer, entertained in a highly satisfactory manner. In fact, it is the consensus of opinion that the talent was the best we have ever had in Binford.

The first program was planned to be held on Wednesday evening, but owing to the bad weather, and the train being stalled near Mose Tuesday and Wednesday, the company was unable to get here in time to fill that engagement. The first program, however, drew a full house, as also did the evening's performance.

The "Merrie Maids" delighted all with their beautiful music, the combination of piano, cello and violins being very harmonious. The young ladies are talented and possess pleasing personalities. Dr. Weber, the lecturer made a friend of every man, woman and child who heard him; his messages are of a high order, full of lofty ideals and sound common sense. He spoke entirely on the community idea, the aim of community clubs that are being organized throughout the state, and the great need of cooperation between city and country.

There will be other companies during the coming months, the next one in March, possibly. Needless to say, their coming will be looked forward to very eagerly. We are promised some very good entertainments, and the association has lived up to its promises so far.

Following the program Thursday evening, a dance was given, the music being furnished by the "Merrie Maids."
