

home Tuesday.

Petitions are being circulated and largely signed requesting that several of the laws passed by the late legislature be referred to the people for rejection or endorsement, as per the referendum act, a nonpartisan measure. We believe that the voters will petition that these measures be submitted to a vote. Many heretofore staunch Nonpartisan league voters have announced themselves against these acts, and also some state officers, elected by the league, are in opposition to certain of the measures as being unjust and un-American.
