

### A Serious Matter

It is at this particular season of the year that school boards everywhere are experiencing much difficulty in securing the necessary quota of teachers, in part due to the inability to secure rooms. In the larger cities "Womens' Community Councils" have been organized with squads canvassing each ward to solve the housing problem. In many instances these women find scores of rooms to spare that could be rented to advantage. On the other hand, there are cases where people have refrained from renting their rooms out from a sense of mistaken pride.

Binford, though only a small village, is no exception to this rule, and much difficulty is being experienced by the school board on account of the housing problem. Good school facilities are vital to a community and unless our good citizens are aroused to the fact that this is a matter of patriotic service we are not only going to cripple our educational advantages, but must as a consequence lose good citizens.

Let us all consider this matter seriously, the time is short, and the school board will surely appreciate your co-operation in a matter that is really necessary.
