

## School Notes.

The grammar department has cheerfully (?) consented to forego the pleasure of a recess during the morning session in order to take up the required six-weeks course in agriculture.

Among those who visited this department during the past week were Mrs. Lewis, Mrs. Pritz, Mrs. Reid, Mrs. Truscott, Mrs. Alfson, Mrs. Peterson, Mrs. Bakke, Mrs. Norman Mrs. Greenland and Miss Olson.

The seventh and eighth grades are planning to organize a Congress, consisting of a House of Representatives and a Senate; to originate bills etc., in fact to carry out the duties of our government. This work is in connection with their United States History.
