

The report which was wired to Mr. and Mrs. Tom Davidson of Sutton, last week, from Washington, that their son, John, was killed in action, was erroneous according to another message received this week stating that he was not killed. This is indeed gratifying news to friends and relatives of the boy.

**Sentinel-Courier:** Charley Cork, veteran traveling man, suffered a facial hemorrhage while seated in the Exchange hotel Monday evening, and but for the timely assistance of

Mrs. F. B. King who was at the hotel as nurse to Mollie Moe, it is quite probable, he would have passed away. He was taken to the Cooperstown hospital and relatives at Fargo sent for, one daughter being a nurse, who is caring for him. Some time ago Mr. Cork underwent an operation at Fargo for Cancer of the nose and face and the hemorrhage was a result of his condition. He has been "making" Cooperstown for more than 20 years and his many friends here are hoping for his recovery.
