

DRAFTED MEN SOON CALLED

**Final Increment Will be Called Com-
mencing Feb. 23— Will Go to
Camp Dodge.**

Provost Marshal General Crowder has announced that the movement of the last increments of the men selected in the first draft will begin on February 23 and continue for a period of five days. This will complete the first draft, as all states will have furnished their full quotas.

The movement will bring the strength of the national army up to the 685,000 men contemplated in the first draft.

The number of men which will be started to Camp Dodge, Iowa, February 23, is 14,984.

The calling of the last increment of the first draft on February 23, affects about 2,000 men or 45 per cent of North Dakota's total of 5,280 men which were included in the first draft. Five per cent of the state's selective service men have gone to Camp Stevens, Oregon.

Although the adjutant general's office and the district board for North Dakota have received no advices from Washington, it is presumed that these men will go to Camp Dodge, where 50 per cent of North Dakota's drafted men already have been sent.

It is understood that enlistments received since the first call was issued will not be credited to the increment remaining due from North Dakota, but will be held as credit on future draft.

"We have about six times as many men now accepted and classed in one A division as this draft will call for," the district board reported Monday. "In the neighborhood of 12,000 men have been classified and held for service in the first sub-division by the local draft boards."
