

Housekeepers! It is important that the Food Preservation report cards should be filled out at once and mailed. After waiting weeks for a new supply of franked cards, plain cards have been resorted to. These can be mailed unsealed in the accompanying franked envelopes. While not so convenient they will still save postage. If your report is not ready by Oct. 15, send it on later. On account of this delay it may be necessary to extend the time to later in the month. Local food chairman can furnish extra cards. —
County Chairman.
