

The Victory loan campaign which opened Monday in Binford wasn't a campaign at all. Chairman Pritz of this district had more than enough subscription to fill the \$14,000 quota without any effort. The township chairmen in this end of the county practically completed their canvass on Monday, and in every township the quota has been oversubscribed substantially. This situation seems to prevail over the county. Chairman Greenland is extremely pleased with the results so far. The Times is printed earlier than usual this week, so we are unable to give any definite figures, but we aim to print a complete story in our next issue.
