

ber of the organization.

Sentinel-Courier: We're a bit afraid we are going to lose one of our best Cooperstown families, the A. M. Hemerlin family. At least Mr. Hemerlin is making effort to dispose of his property here to permit of his removal to climate which he believes would be more agreeable to his rheumatic trouble. The Hemerlins speak of Florida as their prospective home if they do leave here. Friends, and they are many, will trust that conditions will be changed so within the next few weeks that it will be agreeable to the Hemerlins to remain in Cooperstown.
