

able after the drive is launched.

Fred King went to Cooperstown Saturday to bring home the Ford truck he had purchased. While driving back, the box he used for a seat, slipped, throwing Mr. King partly off his balance, so that he run the truck off the grade into a ditch containing about a foot and a half of water, and up against a wire fence. Neither driver nor truck were hurt, however, and with some assistance pulled out of the ditch and proceeded home.
