

ner, returned home today.

Hannaford Enterprise: Milton Mills has disposed of his farm north of town to Robert Pittenger, of near Binford, who will move on the farm in the fall. Mr. Mills included this year's crop in the sale, in order to be free to leave at once on a trip to investigate farming possibilities in western New York state. He had had favorable reports of conditions in that state and as soon as he can get away after his auction sale August 6th, will leave to give it a personal investigation.
