

Minnesota.

McHenry Tribune: Mr. and Mrs. T. B. Moore, who reside nine miles north of McHenry, left Wednesday for Wilsaw, Montana, where their son is running an elevator. After a few weeks visit at that place they will go to Los Angeles, California, to spend the winter. They have lived in Dakota for nearly 20 years and know what the winters are. They had a sale recently and will have to buy equipment again in the spring unless they sell the farm in the meantime, when they would take up their permanent abode in California.
