

house.

Geo. W. Morrissy, of Valley City, deputy organizer of the Modern Woodmen of America, has been in Binford for the past week, and is lining up a number of candidates for the local organization. He expects to have a class of 25 new members in a short time and hopes to put some pep into the lodge. The M. W. A. is writing a splendid protection insurance policy and in regard to service in any branch of the war it has absolutely no restrictions.
