

this week.

N. J. Thune returned yesterday from Fargo, where he had been to attend a meeting of the committeemen, who were appointed to arrange for an audit of the N. W. Farmers' Dairy and Produce Co. Competent auditors are at work on the books, but as yet, very little progress had been made. Sufficient funds are lacking, according to Mr. Thune, to complete the audit. Only 200 stockholders have contributed the requested \$2.00 to defray the expenses, but another effort will be made to raise the required amount. Mr. Thune will receive the money from any of the stockholders hereabouts and forward it to the proper parties.
