

Hannaford Enterprise: Capt. Per Ramee, a cousin of Mrs. Olaf Johnson, was a visitor in Hannaford last week. Captain Ramee is stationed in the Phillipine Islands, and has been in the United States on a furlough since July. He will leave from San Francisco on his return to the Phillipines on November 5th. He stated that the climate on these islands is very much different from what we experience here. The coldest he has ever known it to be was 46 above zero, yet it seldom is excessively hot either, as the range of the temperature is very limited. Capt. Ramee has been on duty in the Phillipines for several years.
