

given to the Red Cross for supplies.

Sutton Reporter: Another important business deal was closed this week, which gave A. H. Retzlaff the ownership of the Sutton Grain Co. elevator. He went to Minneapolis last week and made the transaction at the head office there. Mr. Retzlaff has been in the grain business here since the town was started and has built up a nice line of patronage which he will doubtless be able to retain in his new capacity of chief owner. This leaves only one line elevator, the Minnekota, with which he has been connected the past few years.
