

Rogers Citizen: The N. P. has changed time so that the Soo evening train and the N. P. both leave Rogers at 6:05. This is a great convenience to the traveling public, particularly to those going to Valley City or other points on the Soo from points on the N. P. branch. Formerly the Soo pulled out about ten minutes before the branch train arrived. This made it very inconvenient for a person wanting to make connections. This is one of the great accommodations brought about by Federal control of the railroads.
