

**Sutton Reporter:** Some one without much sense of decency, scattered tacks along the road between Courtenay and Spiritwood the day of the Townley meeting and as a result a lot of cars were laid up with punctured tires. People from here who were at the lake say they passed 14 cars at one time that were out of commission. This is one of the meanest tricks that could be thought of, and if the perpetrator could be caught he ought to be horsewhipped.
