

Sutton Reporter: The local post-office was visited by burglars Monday night, an entrance having been effected through the rear window, which was pried loose from its fastenings. The money drawer which contained about 150 pennies and a little more than that amount of nickels and dimes was cleaned out, but as far as can be ascertained, nothing else was disturbed. A few stamps were in the stamp drawer and two or three dollars box rent money was in a cup nearby, but these were not molested. They went out by way of the back door which was left open, as well as the window.
