

**WM. ROTHERT STRICKMAN
WITH HEART FAILURE**

William Rothert, who lives on a farm south of town, passed away very suddenly last evening. He had returned from the field where he had plowed all day, and was doing the evening chores when he took sick. Mrs. Rothert sent him to the house and said she would finish the work. Coming into the house she found him getting worse so hastened to the neighbor's for aid. When she returned he was dead. Dr. Westley of Cooperstown pronounced the cause of death heart failure. This sad news came as a shock to everyone, and the heartfelt sympathy of the whole community goes out to the bereaved wife.
