
Hannaford Enterprise: Dr. R. D. Benson and family left last Thursday evening for Minneapolis where they will make their future home, he having associated himself with an already established physician in that city. Dr. Benson has been located in Hannaford for the past nine years, and had built up a splendid practice; had won a large number of friends; and took an active and progressive part in all public affairs. The absence of Dr. Benson and his estimable family from our village is keenly felt, and is a distinct loss to the community. His friends all wish him the best of success in his new and larger field of work.
