

During the year, we plan to learn the fundamentals of first aid, life saving, woodcraft, trailing, preservation and signaling. We also intend to learn how to play just as hard as to work. We shall endeavor to make our play as clean and sportsmanlike as any work can be. We intend, as a group, to have hikes, skiing, and skating parties, football and baseball teams, and end up our year's work with a week's outing at Red Willow lake.

We shall have weekly meetings in which we shall study and discuss our work, have special programs and as far as possible try to have some man in our community give a short talk on the things necessary for our young men to know. In our meetings, we shall impress upon the minds of each boy the words of the Boy Scout oath, "To keep himself physically fit, mentally awake, and morally fit."

We ask that each one watch our progress and the results of our work, and this to all fathers of boys, you are all cordially welcome to our meetings, and to offer suggestions or advice.
