

# Change of P. O. Site Is Permitted

Postmaster Peterson has obtained permission from the department to change the site of the postoffice from its present location to The Times building.

The re-arrangement of the printing equipment will be completed the last days of the week, and will be made to allow for practically the same arrangement of the postoffice fixtures as they now occupy. Two windows have been placed in the south wall which will afford ample light back of the fixtures. A narrow alley along the north wall will permit passage from the lobby of the postoffice to the print shop, and entrance to the newspaper office can also be made from the south side, into the rear room.

March 31 marks the close of the quarter, involving considerable extra work in the duties of the postoffice, such as making the regular monthly and quarterly reports. This will be gotten out of the way before an attempt is made to move, but by Monday we hope to be all settled in the new location.
