

also be finished this summer.

R. E. Scudder, graduate of Valley City normal, was here Monday, between trains. Mr. Scudder has been engaged to take the position here as principal for the remainder of the school year, upon the resignation of Miss Marie Moe, who is unable to carry on the work owing to attacks of appendicitis. Mr. Scudder has had several years of experience in teaching in both graded and high schools, and comes highly recommended. He has paid special attention to athletics which, no doubt, will please the boys. The new principal will commence his work on Monday, March 26, after completing his course at Valley City on the 23rd.
