

nearby lunch.

Congressman George M. Young has sent a quantity of government garden seed to The Binford Times for distribution to those of you who want them. There are corn, beet, lettuce, radish and onions, besides some flower seeds. In order that the seeds may fall in the hands of those who will make use of them we are asking those who want them to please call at The Times office and they will be cheerfully delivered to you. They are yours for the asking, so come and get them.
