

in the evening.

**Aneta Panorama:** The County Commissioners of Griggs county were Aneta visitors last week Thursday in the interest of a road to be laid out and worked some time this summer, connecting Coopers-town with Aneta. We understand there are about three different surveys proposed for this road and the commissioners were anxious to learn which one of these surveys would benefit the most people. Here is a fine chance for the Aneta Commercial club to use its influence and work out a plan with township supervisors in Griggs county, whereby Aneta would get a good road leading into town from the west.
