

primary room.

The state highway to the Nelson county line is now practically completed, including the spurs in and out of Binford. Contractor Stanley has done an excellent job of road construction on this project. He has a little repairing to do on the highway south of town and when that is finished will move his crew to Barnes county. Colonel has made many friends in Binford during his stay here this summer and all are wishing for his return when additional contracts are awarded in this part of the county.

New hats in all the correct styles
