

WAR HISTORY COMMISSION

There are now so many records completed and pictures in, that we expect to have Mr. Benson begin work on the county group picture.

We have pictures of all kinds and sizes, so that the work of reducing them to practically a uniform size will require a lot of work on his part and take a lot of time. It is easier of course if he has them all and can group them for enlarging or reducing. So we request that all pictures be gotten in by May 1st, if possible, in order that our group picture may be completed by Decoration Day for our Dedication of the Memorial Room. The relatives of service men should make sure that their soldier folks have their pictures here. There are photos here of about 120 men, while there are about 210 completed records. We wish to have every man represented in the group.

The cabinet for the trophies is completed, and in place. Mr. Paul Sorvik, the trophy chairman, is at work getting the trophies properly labeled and in place.

Of the 77 men whose addresses were called for only about 33 remain. If you have been putting off sending some address in, send it at once, so that man may at least have the chance of having his record and picture with the rest by Memorial Day.
