The second of the series of meetings of the Jessie Community club met Saturday evening at the hall. As predicted the evening was a very fine and profitable one. Although the delayed train prevented the program from being carried out correctly and with the usual pop, the evenings' entertainment did not suffer seriously from it. The different numbers were well rendered and we all enjoyed them. The next program and meeting will take place on January 6, 1923. We hope to begin the new year right. Everyone welcome.
