

Sentinel-Courier: Cooperstonians are going to be greatly surprised with the news that the Killeran family is making ready for removal from this city. Household goods are being made ready for immediate removal to Warren, Minnesota, where Ben Killeran has been given a position with the Standard Oil Co. This position is a real promotion to Mr. Killeran as the Warren field is considered a very fine one in point of gasoline sales by the Standard Co. The Killeran family will be greatly missed in Cooperstown but they can always be assured of the best wishes of a great lot of friends hereabouts. They plan to leave Cooperstown this week, moving household goods by truck.
