

Boyd Knapp was taken very ill on Sunday with a hemorrhage caused from ulcers of the stomach. He was brought to town, and in company with Dr. Truscott, was taken to St. Lukes hospital at Fargo that evening for treatment. Dr. Truscott returned home Monday and reports that an operation will be needed but that Mr. Knapp would have to recuperate from the heavy loss of blood before he could stand an operation. Mr. Knapp's many friends here hope for him a speedy and complete recovery.
