## FEDERAL ROAD TO BE

### LET NEXT MONTH

Pekin Budget: Just as we go to press, we received a telephone message from the county auditor that he had a message from the State Highway Commission, that the contracts for the building of the 26 miles of Federal Highway, from the Gregg County line to Lakota, as surveyed, will be let on May 16th. This has been strenuously fought from different angles all the way through, and it should therefore be good news to its many supporters.
