
STATE ROAD ALLOWED

Pekin Budget: Official information is given out that the state road as surveyed last fall from the Griggs county line to Pekin will be built through this season, and that the contract for same will be let on the 17th. This is good news, as the sooner we get better roads in our county the better it is. This is probably the most opportune time for this project, as everything needed for it, of which labor is the biggest item, is cheaper now than it probably will be for a long time.
