

EQUITY BUY G. W.

Tower City Topics: The Great Western Elevator Co. this week made arrangements whereby they dispose of their property to the Equity Elevator Co., the latter to take possession at once. The Equity company planned at first to rebuild but the heavy expense made them decide to purchase an established elevator and at the same time reduce the number of competing grain houses to three. Mr. Harry Hill will remain in charge of the company while the Great Western agent, Mr. Austin Rorvig, will be transferred to some other house for his company. Mr. Rorvig is a fine business man, he has made many company friends since opening the Great Western here last fall, and his family have endeared themselves to the city. It is with regret that we must part with them but we know that wherever they go, they will make their new home the better for their coming.
