

Retzlaff Loses Second Elevator

Fire was discovered in the elevator belonging to A. H. Retzlaff, at Sutton, last night at 2:00 o'clock a. m., and had gained such headway that nothing could be done to save it and the building burned to the ground. No one seems to know how the fire started. We understand there were about 10,000 bushels of grain stored in the elevator. It is just a year ago this week since Mr. Retzlaff lost an elevator at Sutton by fire.

The Minnekota elevator situated near by was also in danger for a time of catching on fire from the burning structure.
