

GRAND OPENING

The new hall being built by Ben E. Nelson is rapidly nearing completion and when finished will be what this town has long needed in way of a roomy place for entertainments. Heretofore we have not had ample room for a good play or entertainment of any description, and now Mr. Nelson has supplied the town with such a building at an enormous cost. Since it will be a long time before Mr. Nelson can begin to realize fittingly from the hall, and since he has taken so much pride in the venture and gone to such expense to fill this long felt want, the commercial club has decided to give an entertainment on Friday, October 26th, for the purpose of raising money to pay for seats for the large room. A play will be put on by home talent, after which refreshments will be served. After the refreshments those who desire will be afforded an opportunity to dance or play games as they choose and a general good time is in store for all who buy tickets and help the project along. Tickets are now on sale at nearly every business place in town. and it is hoped that the citizens of the village and those of the country tributary who have always felt the need of such a hall as Binford now has, will help out to the extent of buying a ticket and doing all in their power to encourage the effort to fill this need.
