

W. E. West is the name of our new depot agent, who entered upon his duties the latter part of last week. He comes here from Rogers. It is our opinion that Mr. West will be found to be a very satisfactory agent, and we are inclined to believe that he will be right on one very important question that has been loosely handled here in the past, and as to his other duties there is no question but that he will be found to be o. k.
