

The startling news of the sudden serious illness of Mrs. Tom Davidson of Conperstown, was received by Mrs. Maurer Monday afternoon and immediately she and Christina Davidson started for the Davidson home. At that time the report was that Mrs. Davidson was not expected to recover. At a late hour Monday evening it was reported that she was improving somewhat, and at this writing we have heard nothing further concerning her case. We hope however that the improvement will continue and that Mrs. Davidson will recover.
